

Capabilities Statement

Who We Are

Silotech Group, Inc is a team of veterans with intimate knowledge of mission critical infrastructures and a deep level of understanding into the needs, missions, protocols and pain points of multiple Federal/DoD Agencies. We deliver Advanced Cyber, Enterprise IT, Intelligence Solutions, and Cloud & Modernization services to our DoD, Federal, State and commercial clients.

The Intellekt Group is a Veteran-Owned Small Business (VOSB) headquartered in San Antonio, Texas with a global presence. We combine extensive experience with a culture of extreme accountability and cutting-edge technologies to deliver comprehensive and innovative solutions to our Federal Government customers.

Together, Silotech and Intellekt provide convenient, direct access to exceptional solutions that support your mission requirements.

Silotech-Intellekt 8(a) JV

DUNS: 08-1046910

CAGE Code: 81G60

EIN: 82-4080840

- 8(a) and 8(m)
- HUBZone
- Service Disabled Veteran Owned Small Business (SDVSOB)
- Woman Owned Small Business (WOSB)
- Top Secret Facility Clearance
- Maximum flexibility with fast response to short notice requirements via directed awards

Core Competencies

Intelligence, Surveillance, & Reconnaissance

- Multi-Discipline ISR Analysis
- ISR plans and requirements
- Training Support
- MULTI-INT Analysis
- Collection Management
- Cryptologic Mission Support
- Operations Center Support
- Targeting/Reporting Analysis
- Security/Force Protection Management
- Electronic Warfare Research & Analysis
- Language, Operations, and Signal Analysis

Accelerated Learning

- Virtual Learning Environments
- Technology Enhanced Classrooms
- Instructor Led Training
- Courseware Development
- Foreign Language Training
- Command Language Program Management
- VTC Technicians
- Interactive Multimedia Instruction
- Aircrew Simulation Support
- Test Control Administration

Advanced Cyber Solutions

- Risk Management Framework (RMF)
- Penetration Testing
- Remediation
- Forensic Analysis
- Defensive Cyber Operations (DCO)
- Offensive Cyber Operations (OCO)
- Network Operation Monitoring & Response
- Countermeasure Development
- Deep Packet Capture & Inspection (DPC&I)

Cloud & Modernization

- Cloud Adoption
- Cloud Services
- Data Center Consolidation
- Infrastructure Optimization
- Business Process Re-engineering
- Solution Integration
- Application Modernization
- Re-Platforming

Enterprise Technology

- Cyber Network Engineering/Security
- Network Engineering
- Systems Design and Integration
- Systems Administration
- Information Systems Security
- ADPE Asset Management
- Applications Programming
- Web/SharePoint Development
- Medical IT Services/Integration

Customers

- 16th Air Force
- Air Combat Command (ACC)
- Air Force Special Operations Command (AFSOC)
- Air Force Central Command (AFCC)
- General Services Administration (GSA)
- U.S. Army Corps of Engineers (USACE)
- U.S. Strategic Command (USSC)
- Army Cyber Center of Excellence (CCoE)
- Texas Cryptologic Center
- Defense Logistics Agency (DLA)
- Defense Security Cooperation Agency (DSCA)

Past Performance

Silotech

Army Cyber Center of Excellence (CCoE) - U.S. Army Cyber School Training and Curriculum Development

We developed lesson plans and practical exercises in the areas of Windows, Linux, Networking, Computer Programming, Scripting, and Security. We architected, implemented and managed the Virtual Training Area (VTA) OpenStack training environment and supported the development of Common Cyber Technical Core (CCTC) Course.

Texas Cryptologic Center - GUARDTOWER System Engineering and Administration Support

Under this contract, we provided on-site System Administration of the containment architecture on a 24/7/365 basis. We developed user system requirements and constraints, analyzed system specifications and translated to system requirements. We developed and implemented the complete Virtual Architecture for the GuardTower infrastructure.

Defense Logistics Agency (DLA) - Cybersecurity Engineering Support Services

We implemented RMF process to identify, implement, assess and manage cybersecurity capabilities and services. We developed FISMA compliant Plans of Action and Milestones (POA&M) for correcting vulnerabilities and provided cybersecurity support for mission systems and the DOTNET enclave and engineered, configured and implemented DLA cybersecurity tools.

Intellect

Air Force Central Command/A2 ISR Support

This contract supports the evolution of operational requirements, mission operations, and life-cycle sustainment of ISR technologies within USAFCENT. Our tasks and SME expertise include ISR support to collection management, ISR support to plans, ISR support to exercises, ISR support to architecture, PED and PED architecture support, IMINT and GEOINT support, MASINT support, SIGINT support, Targeting support, Force Management.

16th Air Force - CLPM Database / Language Portal

This contract supports the AFCCO/CF and organizational Command Language Program Managers (CLPM) to track the language capabilities, training history, and language testing results of cryptologic language analysts (CLAs) and provides program metrics for leadership action. The portal also serves as an automated transmission mechanism for language training requirements and language training funding information. Our tasks and SME expertise include Network Engineering support, Application Programming Support, and Sr. Database Development support.
